

## 3-Section Hi-Low Treatment Table

The Tru™ 3-Section Hi-Low Treatment Table is built to last. The frame is built of high quality square section steel tubing for maximum rigidity and stability. The table is also equipped with standard nose hole (and nose hole plug) for patient comfort while in the prone position. The Tru table offers an attractive closed base system that hides all electrical components making the table look spotless. This also makes your Tru table an absolute breeze to clean. The Tru 3-Section Hi-Low Treatment Table exhibits functionality & refinement.
